CIMMYT

Senior Internal Auditor

The International Maize and Wheat Improvement Center (CIMMYT), is seeking an innovative, self-motivated, candidate for a Senior Internal Auditor position in the DG's office. The position will be based at CIMMYT's Main Campus located 45 km northeast of Mexico City, Mexico.

The Senior Internal auditor is responsible for performing assigned project tasks designed to identify, evaluate and report on key operational and financial processes, as well as evaluate the design, efficiency and effectiveness of the processes as dictated by operational and Sox compliance needs. Testing areas could include all financial processes, payroll, accounts payable and receivable, research projects, and information systems. This position also requires you to assess risks associated with assigned projects and develop audit programs designed to evaluate the organization's ability to efficiently and effectively mitigate risks. You will prepare written reports to document the results of testing and communicate these results to process owners Organization management, and Audit Committee. This position may include up to 25% travel as required by specific projects.

We are seeking candidates with the following qualifications:

- Bachelor degree in accounting or business administration
- one to three years of relevant experience in either a public accounting or corporate setting
- CPA or CPA candidate preferred
- Understanding of Sarbanes Oxley required
- Demonstrated skills in project management, data collection, analysis, and problem solving
- Must be proficient in Microsoft Word and Excel
- Ability to work independently, maintain confidentiality, and present findings and recommendations utilizing excellent written and verbal communications skills.
- Experience in IT systems auditing preferred but not necessary
- Very good people and communications skills; fluency in speaking and writing English.

CIMMYT (www.cimmyt.cgiar.org) is an internationally funded, non-profit research and training organization affiliated with the Consultative Group on International Agricultural Research (CGIAR, www.cgiar.org) and has an annual budget of nearly US$40 million. CIMMYT's mission is to help the poor in the developing world by increasing the productivity, profitability, and sustainability of maize- and wheat-based cropping systems while protecting natural resources. The Center is a global leader in scientific research and training related to maize and wheat, and in biotechnology, economics, and natural resource management research. These activities are conducted in partnership with national agricultural research systems, non-governmental organizations, and advanced research institutions, both public and private, in globally focused projects and programs. CIMMYT employs a staff of around 700 and operates in a decentralized, partnership mode, having staff in 14 countries, projects and partnership networks in many more.

CIMMYT is an equal-opportunity employer and strives for staff diversity in gender and nationality.
