

Overview table: Activities per country component

Technical focus area	Research-for-development activities	Geographical focus	Partners
Options for reducing vulnerability along the fish marketing chain	<b>A. Socio-economic assessments</b>		
	Assessment of vulnerabilities of female fish traders along fish marketing chain.	South East Arm of Lake Malawi (Malawi) and Cahora Bassa (Mozambique)	Chancellor College, University of Malawi - <i>Malawi</i>
	Assessment of mobility/migration and vulnerabilities of female fish traders along the fish marketing chain.	Kasenga, Katanga Province (DR Congo)	Centre Interdisciplinaire Pour Le Développement Et Education Permanente (CIDEP), Université Ouverte de Lubumbashi – <i>DRC</i>
		Mukono District, Lake Victoria (Uganda)	Department of Social Sciences, Makerere University – <i>Uganda</i>
	Assessment of mobility/migration, vulnerabilities of female fish traders along the fish marketing chain and health services provisioning.	Kafue Flats fishery (Zambia)	WorldFish Center - <i>Zambia</i> .
	Analysis of regional aspects of vulnerability of fisheries sector actors, accessibility of services and perception of services	Regional level issues in value chains (Nigeria, Benin, Togo, Ghana, Côte d'Ivoire, Liberia)	FCWC(Fisheries committee for West and Central Gulf of Guinea), Interface Afrique, FAO
		Corridor HIV/AIDS mobility and migration study (Nigeria, Benin, Togo, Ghana, Côte d'Ivoire)	PSI (projet Impact; appui à la santé familiale et à la recherché VIH/SIDA), Corridor Lagos-Abidjan programme, Fisheries Department of Nigeria, Benin, Togo, Ghana and Côte d'Ivoire.
	Crab value chain analysis and HIV/AIDS susceptibility and vulnerability	Southern Benin lagoon systems and value chain into regional markets (Lome/Togo; Accra / Ghana)	Interface Afrique, Fisheries departments, FAO (AIDS PAIA)

Technical focus area	Research-for-development activities	Geographical focus	Partners
		Nigeria Lagos lagoon system	NIOMR (National Institute for Oceanography and marine research)
	Livelihoods diversification: Impact study including assessment of system, organization development and impact of interventions at Household level	Benin, 4 communities	Consultant, Fisheries department and decentralized services of agriculture extension, health and MFI
	Assessment of vulnerability of fisheries communities , youths, women and mobile and migrating groups (base line data)	Coastal fishing communities in Cameroon	PPSAC (Projet prévention VIH/SIDA en Afrique Centrale), PSI (social Marketing)
		Coastal fishing communities in Lagos state (Nigeria) Fishing communities in the Lake Chad Basin (Nigeria)	NIFFR (National Institute for Freshwater Fisheries Research), SACA (State Action committee on Aids) Borno state, NAC, Lake Chad Basin Initiative, GTZ Borno state, FHI/GAIN (Family Health International / Global Aids Initiative Nigeria) Borno state, NIOMR, Lagos state AC
	<b>B. Business-based innovations</b>		
	“Fish Trader+”: Business-based innovations by female fish traders to reduce vulnerability.	Mangochi (Malawi) and Cahora Bassa (Mozambique)	World Vision International – <i>Malawi and Mozambique</i>
		Kasenga, Katanga Province (DR Congo)	World Vision International - <i>DRC</i>
Kafue Flats fishery (Zambia)		WorldFish Center and NGO (TBI) - <i>Zambia</i>	

Technical focus area	Research-for-development activities	Geographical focus	Partners
		Mukono District, Lake Victoria (Uganda)	NGO (TBI) – <i>Uganda</i>
	Test approaches on service provision to youth groups, PLHIV, social marketing of condoms through the fisheries marketing chain actors, community relay network of peer educators	Cameroon (coastal communities)	PPSAC
		Nigeria (Lake Chad Basin fisheries communities)	NIFFR, SACA Borno state, NAC, Lake Chad Basin Initiative (LCBI), GTZ Borno state, FHI/GAIN Borno state
	Mainstream HIV/AIDS in upgrading support to crab value chain actors	Benin: 4 pilot communities on two lakes and other actors along the value chain. Nigeria	ONG, fisheries department, consultants
	Strengthening livelihood diversification initiative	Benin, 4 communities Nigeria & Cameroon	ONG, decentralised services on agriculture extension, health, social services, MFI
	Scaling up of interventions on livelihood diversification : <ul style="list-style-type: none"> <li>○ Testing rice varieties</li> <li>○ Economic and social capacity building through management of Livelihoods diversification funds</li> </ul>	Benin, Rice trials in one community	ADRRAO, National rice programme, National extension services
		Increased number of communities assisted in So-Ava district and through funding from HIV/AIDS Multi sector Programme (WB)	Ambassade de France PMLS II (Programme Multi sectoriel de Lutte contre le SIDA) Fisheries department Globale Alternative (ONG).
Enhancing nutrition benefits from small scale aquaculture and	Assessment of nutrition security impact of aquaculture among small-holder farmers affected by HIV/AIDS.	Ntchisi and Chingale farming communities (Malawi)	Bunda College, University of Malawi - <i>Malawi</i>

Technical focus area	Research-for-development activities	Geographical focus	Partners
fisheries	Analysis of nutritional value of fish and fish products accessible to urban poor.	Urban markets in Lubumbashi (DR Congo)	Clinique Universitaire, Université de Lubumbashi – <i>DRC</i>
	Analysis of the effects of a fish diet on the nutritional status of People Living with HIV (PLHIV) and their response to ART.	PLHIV and urban poor in Lusaka (Zambia)	Kenneth Kaunda Children of Africa Foundation, and School of Agricultural Science, University of Zambia – <i>Zambia</i>
	Analysis of nutritive quality and post-harvest activities in 'low value' fish marketing chains.	Mukono District, Lake Victoria (Uganda)	Department of Food Science and Technology, Makerere University – <i>Uganda</i>
	Monitor food security and food diversity indicators in four districts and measure impact of interventions of vulnerability reduction through diversification of livelihoods on food security  Restitution of results and planning food security and food diversity initiatives; additional study on health aspects in food insecure districts.	Benin , four districts Cameroon and Nigeria to start in 2009.	FAO Nutrition division Université d'Abomey Calavi DANA (Division de l'alimentation et de la Nutrition Appliqué du Ministère de l'Agriculture, Pêche et Elevage)
Institutional change to increase investment in viable support options	Development of monitoring indicators and alignment of fish data in national food security monitoring system.	National (Malawi)	Ministry of Agriculture and WorldFish Center - <i>Malawi</i>
	Development of by-laws by fishing communities and uptake at district and national policy level.	Kafue Flats fishery and national policy (Zambia)	WorldFish Center - <i>Zambia</i>

Technical focus area	Research-for-development activities	Geographical focus	Partners
	Institutional analysis of capacity, opportunities and constraints for collaboration among key national agencies working on fisheries, HIV/AIDS and food security.	National (Uganda)	Uganda AIDS Commission - <i>Uganda</i>
	Prepare Fisheries HIV/AIDS strategy and action plan and lobby at national level for support.	National (Benin)	NAC, Fisheries department and Ministry
		Cameroon Nigeria: national restitution of studies and lobby at level of LCBI, NAC and state levels	Fisheries department LCBI, Fisheries department, NAC
	Research on fisheries sector contributions to food security.	West and Central Africa	ECOWAS (WAHO- nutrition division)
	Regional fisheries committee forum to inform Ministries and fisheries departments and share lessons learned and good practices.	West and Central Africa	FCWC COREP FAO AIDS PAIA
