December 31, 2011

THE WORLDFISH CENTER
(also known as ICLARM)
An International Non-profit Organization

Financial Statements and Supplementary Schedules
31 December 2011 and 2010

Statement by the Chairman of the Board

The year ending 31 December 2011 has been another eventful reporting period for the WorldFish Center. The Board of Trustees is happy with the significant progress that the Center has made in its programmatic delivery, risk management, and building of effective partnerships.

The Center participated actively in the strengthening of the new Consortium of the CGIAR Centers. The CGIAR Research Program that WorldFish is leading has also become operational during the second half of the year and we look forward to an effective implementation along with our implementing partners in the ensuing year.

Review of Operations

In the past year, WorldFish has focused on reshaping its strategy and research portfolio to maximize the opportunities provided by the CGIAR reform. The new CGIAR Strategy and Results Framework and the CGIAR Research Programs provided the foundation of this effort and for the WorldFish Strategy Update, which the Board endorsed in May. This updated strategy more explicitly aligns the research of the Center with the new CGIAR strategic objectives and recognizes the CGIAR Research Programs as the key vehicles for pursuing the WorldFish mission.

Building on this guiding document, the Board also recognizes that one of the foremost accomplishments by the Center this year has been its contribution to designing the CGIAR Research Programs. We are particularly pleased by the scientific and organizational leadership Worldfish has shown in developing the Research Program on Aquatic Agricultural Systems. The Board is confident that successful delivery of this Program will make a major difference in reducing poverty and hunger in these systems and commends the management, staff and WorldFish partners for putting together such a compelling program. In the light of these efforts I am more and more convinced that fisheries and aquaculture are key elements in future world food security.

Risk Management

The Board of Trustees and Management of the WorldFish Center have reviewed the implementation of the risk management framework during 2011 and are satisfied with the progress made. The Center has a risk management system in place which is reviewed regularly by the Board of the Trustees to ensure that major risks to which the Center is exposed are identified and that management has established appropriate systems to mitigate those risks. The CGIAR Internal Audit Unit also assists the Audit Committee of the Board in exercising fiduciary oversight through independent and objective evaluation of the adequacy and effectiveness of the organization's internal control and risk management systems.

Financial Position

I am pleased to note the continued financial stability and the sound financial management of the Center. Revenue in 2011 amounted to US\$17.754 million against expenditure of US\$17.472 million resulting in a surplus of US\$0.28 million for the year. The funding outlook for 2012 looks strong as we move into the full implementation of the CRPs and I expect to see a significant increase in our programs as a result. We will continue to manage costs rigorously and pursue opportunities for efficiencies and collaboration with other CGIAR Centers and research partners.

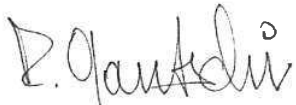

The Center's net assets at the end of 2011 amounted to US\$8.3 million. Our liquid assets and reserves are adequate to ensure continued operations but will need to be increased to ensure operational sustainability as our program grows.

Recovery of indirect costs from funded projects amounted to US\$2.12 million in 2011. This showed an increase over 2010 but the full recovery of our costs from some donors remains a challenge. As we move forward with mainly restricted funding, the ability of WorldFish to continue to co-financing some projects will be significantly reduced and will only be possible in exceptional circumstances.

In conclusion WorldFish's overall financial position continues to be sound and we did not operate an overdraft with any of our bankers during the year.

Prospects, Risks and Opportunities

In summary, the achievements made this year by the CGIAR and the Center in its reform efforts have been large. As with any reform process, there have been, and will be further, bumpy patches, but we remain confident that we can continue to build on a promising foundation. Meeting our impact targets will certainly be challenging, but experience in development has led the Board to recognize that good science must partner with political and economic processes to make a difference and that it takes time for research to deliver on these development promises. WorldFish and the CGIAR can contribute good science but a secure funding stream to support this is essential. At WorldFish we look forward to contributing to delivering quality research to these development challenges supported by the more secure funding environment expected in the new CGIAR.

Ambassador Remo Gautschi
Chairman, Board of Trustees

Financial Statements
31 December 2011

Management Statement of Responsibility for Financial Reporting

The accompanying financial statements of The WorldFish Center is the responsibility of management and have been prepared in accordance with generally accepted accounting principles as contained in the CGIAR guidelines - Financial Guideline 2 (supplemented by 2011 Advisory note) . The WorldFish Center is responsible for the substance and objectivity of the information contained therein.

Our financial reporting practices follow the **Accounting Policies and Reporting Practices Manual - Financial Guidelines Series No. 2 (supplemented by 2011 Advisory Note)** of the Consultative Group on International Agricultural Research. The WorldFish Center maintains a system of internal control designed to provide reasonable assurance that assets are safeguarded and transactions are properly recorded and executed in accordance with management's authorization.

A system of reporting within The WorldFish Center presents management with an accurate view of the operations, enabling us to discern risk and at the same time providing a reliable basis for the financial statements and management reports.

The Board of Trustees exercises its responsibility for these financial statements through its Audit Committee. The Committee meets regularly with management and representatives of the external auditors to review matters relating to financial reporting, internal control and auditing.

Report on the Financial Statements

We have audited the accompanying financial statements of The WorldFish Center ("the Center"), a non-profit organization, which comprise the statement of financial position as at 31 December 2011 and its statement of activities, statement of changes in net assets and statement of cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes, as set out from pages 1 to 16.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with the Financial Guidelines Series No. 2 on accounting policies and reporting practices manual (supplemented by 2011 Advisory Note) prescribed by the Consultative Group on International Agricultural Research (CGIAR) for International Agricultural Research Centers, as explained in Note 2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Our responsibility is to express an opinion on these financial statements based on our audit.

Auditors' Responsibility

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. We were not engaged to perform an audit of the Center's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management, and evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Center as at 31 December 2011 and the results of its operations and cash flows for the financial year then ended in conformity with the Financial Guidelines Series No. 2 on accounting policies and reporting practices manual (supplemented by 2011 Advisory Note) prescribed by the CGIAR for International Agricultural Research Centers.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information included in Exhibit I to V are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and in our opinion, is fairly stated in all material respects when considered in relation to the financial statements taken as a whole.

THE WORLDFISH CENTER

(also known as ICLARM)

An International Non-Profit Organization

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 1 - General / Host Country Agreements

The WorldFish Center (The Center) was established in 1976 by the Rockefeller Foundation and formally incorporated under the laws of the Republic of the Philippines on 20 January 1977 as a non-stock, philanthropic and non-profit corporation. In 1992, the Center joined the Consultative Group on International Agricultural Research (CGIAR) to become one of the fifteen agricultural research centers supported by the CGIAR. CGIAR is an informal but highly successful association consisting of 63 governments, development institutions and private sector organizations supporting the fifteen international agricultural research centers.

On 22 April 1993, an international agreement was signed by a number of countries, recognizing the Center as an international organization. The Center's focus is to promote sustainable development and use of living aquatic resources based on environmentally sound management. The Center has research sites and/or offices in nine countries including the headquarters in Penang, Malaysia.

A. Headquarters Agreement with the Malaysian Government and Relocation to Malaysia

On 17 January 2000, the Center signed a Headquarters Agreement with the Malaysian Government for establishing The WorldFish Center (also known as ICLARM) headquarters in Batu Maung, Penang, Malaysia. The headquarters agreement granted the Center immunities and privileges that are normally granted to diplomatic and international organizations operating in Malaysia to facilitate the Center's global activities. A Headquarters Lease Agreement was also signed as a supplement to the headquarters agreement, making available to the Center a research site of 5.4 hectare at nominal annual rent for a period of 30 years with an option for renewal for another 30 years and thereafter by agreement of both parties. In the event of termination or expiration of the agreement, the land and facilities (fixed assets and fixtures) shall revert to the Malaysian Government.

On 15 February 2000, the Center commenced operations at a temporary office site in Penang, Malaysia and moved to its new headquarters in June 2001. The new headquarters was officially inaugurated on 13 August 2001.

B. Agreement with the Egyptian Government for the Establishment of The WorldFish Center's Research Center for Africa and West Asia

The Center and the Government of the Arab Republic of Egypt entered into an agreement on 31 March 1997 to establish a regional center in the Arab Republic of Egypt. The agreement was ratified by the Arab Republic of Egypt on 8 December 1997. As provided for in the agreement, the Egyptian government made available to the Center the utilization of the facilities and equipment operated by the Central Laboratory for Aquaculture Research at Abbassa, Abou Hammad-Sharkia Governorate, and at other research sites to be agreed upon within the Arab Republic of Egypt for the benefit of the international community and the people of Egypt.

The agreement remains in force for 25 years, and shall be renewed by mutual consent of the parties for another 25 years. In the event of termination or expiration of the agreement or its extensions, land and facilities thereupon as upgraded shall revert to the Arab Republic of Egypt.

The properties in the regional center include among others, the tract of land of approximately 1,480 feddans (6,216,000 square meters), administration and laboratory buildings, 12 villas, two residential buildings, workshops and stores, as well as the different types of research ponds.

C. Tax Status

WorldFish Center operates under agreements entered into with the governments of the respective host countries. Under these agreements, the Center and its assets are not subject to any direct or indirect taxation.

Basis

The accompanying financial statements, expressed in US dollar, are prepared on the basis of accounting policies and reporting practices prescribed for international agricultural research centers seeking assistance from the CGIAR.

The Center's significant accounting policies are summarized below:

Cash and cash equivalents comprises cash on hand, petty cash funds, currencies awaiting deposit and local or foreign currency deposits in banks which can be added to or withdrawn without limitation and are immediately available for use in the current operations.

Cash equivalents are short-term, highly liquid investments that are both:

Investments are short-term, highly liquid investments that are readily convertible to known amount of cash with original maturities of twelve months or less from the date of acquisition.

Receivables of the Center includes claims against donors; loans and advances to officers and employees; advances to other Centers and claims against third parties for services rendered.

Allowances for doubtful debts are provided in an amount equal to the total receivables shown, or reasonably estimated to be doubtful of collection. The amount of the allowance should be based on past experiences and on a continuing review of receivable reports and other relevant factors.

Any receivable or portion of receivable judged to be uncollectible is written off. Write-offs of receivables are done via allowance for doubtful accounts after all efforts to collect have been exhausted.

Accounts receivable (Donors) are claims held against donors for the future receipt of money, goods and services. Receivables due from donors can arise from unrestricted grants which are due and receivable by the Center and amounts due from restricted grants that have been negotiated between a donor and the Center.

"Accounts receivable - donors" are classified as follows:

Unrestricted grants are receivables recognised in full in the period specified by the donor.

Restricted grants are recognised in accordance with the terms of the underlying contract. Restricted grants include Challenge Programs.

Property and equipment are stated at historical cost less accumulated depreciation. Tangible assets with an estimated useful life beyond one year and having costs in excess of US\$1,500 or its equivalent are capitalized. Depreciation of assets owned by the Center is provided from the month of capitalization and is computed on the straight-line method over estimated useful lives of the related assets as follows:

Category description	Estimated useful life in years
Physical facilities	
Building inclusive of sub systems	25 - 60
Furnishing and equipment	
Heavy duty equipments	7 - 10
Office and household furniture, fixtures and equipment	5 - 10
Laboratory and scientific equipments	5 - 10
Computer equipments (hardware)	3 - 5
Purchased Software	2 - 3
Vehicles	4 - 7

Property and equipment acquired through the use of restricted grants for a certain project are recorded as assets in custody and remain the property of the respective donors until the expiration of the agreement or contract. Such assets are fully depreciated in the year of purchase and the depreciation expense charged directly to the appropriate restricted project. Assets are monitored by the Center until such time that the donor in consultation with the Center decides on the disposition of the property and equipment.

In compliance with the CGIAR accounting manual, the Center implements a no asset, no depreciation policy for capital expenditures below the capitalization limit of the Center. Only property and equipment, which were acquired during the year (with the title passing to the Center) or transferred to the Center via donations with the cost or fair market value exceeding US\$1,500, were capitalised and subjected to depreciation.

The Center's immovable assets (including buildings and site development) which were made available by the host country are not capitalized and not depreciated. However, effective from 2004, immovable assets are capitalized at cost. In the event of termination or expiration of the agreement, all immovable assets will revert to the host country.

The cost of normal repairs and maintenance of existing property and equipment are treated as current operating expenses. Expenditures incurred for repair of an existing property and equipment which increase the estimated useful life or enhance the operating efficiency of the assets (owned by the Center) are capitalized.

Upon disposal of an item of property and equipment, any gain or loss on disposal is charged as other gains or losses in the Statement of Activities.

Accounts payable (Donors) are grants received from donors for which conditions are not yet met and for funds received in advance for restricted grants.

"Accounts payable - donors" are classified as follows:

Unrestricted grants are grants received from the unconditional transfer of cash or other assets to the Center.

Restricted grants are grants received from a transfer of resources to the Center in return for future compliance relating to the operating activities of the Center. Restricted grants include Challenge Programs.

Net assets are the residual interest in a Center's assets remaining after liabilities are deducted. The overall change in net assets represents the total gains and losses generated by the Center's activities during the period as determined by the particular measurement principles adopted and disclosed in the financial statements.

Designated net assets are net assets that has been designated by Center Management for specific purposes, such as a reserve for the future acquisition of property and equipment.

Undesignated net assets are net assets that is not designated by Center Management for specific purposes.

Fund for investment and other activities are designated funds approved for research work or contingent liabilities.

Accrual accounting: The Center prepares its financial statements, except for cash flow information, under the accrual basis of accounting. Transactions and events are recognized when they occur (and not as cash or its cash equivalent is received or paid) and they are recorded in the accounting books and reported in the financial statements of the periods to which they relate. Expenses are recognized in the Statement of Activities on the basis of a direct association between the costs incurred and the earnings of specific items of revenue.

Revenue recognition: Revenue is the gross inflow of economic benefits during the period arising in the course of the ordinary activities of a Center where those inflows result in increases in net assets. The major portion of a Center's revenue is normally derived through the receipt of Donor grants – either "Unrestricted" or "Restricted". Grants are recognised as revenue upon the fulfilment of the donor-imposed conditions attached to them unless the donor has explicitly waived the conditions. Revenue includes only the gross inflow received and receivable by the Center on its own account. Center recognizes CRP income from the Consortium as Lead Center including amounts passed on to other Centers and expended by them. Funds received from the Consortium is recognised in full by the Lead Center.

Unrestricted grant revenue arises from the unconditional transfer of cash or other assets to a Center.

Restricted grant revenue arises from a transfer of resources to a Center in return for past or future compliance relating to the operating activities of the Center.

Other revenues includes gains, net of losses, resulting from transactions involving currencies other than the US dollar and restatement of foreign currency denominated assets and liabilities at year-end or at reporting date. It also includes gain or losses from disposal of assets, training fees, sale of fish and any other items not specifically covered above.

Translation of currencies: Foreign currency-denominated transactions are converted into US dollars for reporting purposes at exchange rates prevailing at the dates of the transactions. All exchange rate differences resulting from (a) the collection of foreign currency-denominated receivables and (b) the settlement of foreign currency-denominated obligations at rates which are different from which they were originally booked are credited or charged to general operations in the Statement of Activities.

Outstanding assets and liabilities denominated in currencies other than US dollar at year-end or reporting date are translated into US dollar at exchange rate prevailing on the date of the Statement of Financial Position. Any gains or losses resulting from the restatement of accounts are credited or charged to general operations in the Statement of Activities.

Indirect costs represent management functions with no direct link to the project activities and common sustenance services, which support the performance of the Center's activities on an institutional basis. The actual rate of recovery depends on the provision agreed upon by the two contracting parties (WorldFish and the donor) for indirect cost recovery and stated in each project's contract.

Note 3 - Cash and cash equivalents

Cash and cash equivalents at 31 December consist of :

	2011	2010
	(US Dollar '000)	
Cash on hand and in bank *	11,760	6,985
Outreach operating funds	1,358	754
	13,118	7,739

* Includes funds in trust of US\$291,670.76 and advance received on CRP1.3 of US\$1,463,099 as at 31 December 2011; US\$443,059.07 as at 31 December 2010 (see note 10)

Cash in banks are denominated in US Dollars, Australian Dollars, United Kingdom Pounds, Euro and Malaysian Ringgit.

Outreach operating funds are denominated in local currencies (Bangladesh Taka, Solomon Dollar, Malawi Kwacha, Cameroon CFA Franc, Zambian Kwacha, Egypt Pounds and Philippines Pesos) as well as in US Dollars.

Note 4 - Accounts receivable (Donors)

Accounts receivable (Donors) at 31 December consist of unreleased balances of approved grants and expenses advanced as follows:

		2011	2010
	Exhibit	(US Dollar '000)	
Unrestricted	I	-	2,628
Temporary Restricted	I	2,840	1,591
Challenge Programs	I	117	175
		2,957	4,394
Less : Allowance for doubtful debts		(5)	(58)
		2,952	4,336

Allowance for doubtful debts reduced by approximately 91.4% due to recovery of doubtful debts of US\$52,350.43. No additional provision on allowance was made for year 2011.

Further detail is found in Exhibit I.

Note 5 - Accounts receivable (Others)

Accounts receivable (Others) at 31 December consist of:

	2011	2010
	(US Dollar '000)	
Project advances	501	394
AIARC	21	18
Others (ABIO FTE chargeable to FIN)	-	78
Others CGIAR Centers	8	-
	530	490

There have been no doubtful or bad debts during the year.

Note 6 - Prepayments

Other current assets at 31 December consist of:

	2011	2010
	(US Dollar '000)	
Deposits	27	27
Prepaid expenses *	146	141
Advance payment to vendors	29	74
	202	242

* Included US\$16 thousand for prepaid rental expenses on Zambia office

Note 7 - Property and equipment, net

Property and equipment at 31 December were as follows:

	2011	2010
	(US Dollar '000)	
Cost	2,133	2,152
Accumulated depreciation	(2,009)	(1,962)
Carrying Amount	124	190

Included in the cost are assets in custody amounting to US\$195 thousand (2010:US\$220 thousand) depreciated at a rate of 100% per annum.

Further detail is found in Exhibit III.

Note 8 - Accounts payable (Donors)

Accounts payable (Donors) at 31 December consist of grants which conditions are not yet met and excess grants to be reimbursed to donors as follows:

		2011	2010
	Exhibit	(US Dollar '000)	
Unrestricted	I	388	-
Temporary Restricted	I	4,169	1,293
Challenge Programs	I	21	85
		4,578	1,378

Further detail is found in Exhibit I.

Included are funds received in advance from CGIAR amounting to US\$388,500 of stability funding, CGIAR Consortium Board amounting to US\$1,348,099 and US\$115,000 on behalf of The International Water Management Institution for CRP 1.3, US\$11,493 from The United Nation University, US\$7,972 from The food Agricultural Organisation Rep SL and US\$26,618.92 from The Embassy of Ireland as Irish Aid.

Note 9 - Accounts payable (Others)

This consists of amount payable to suppliers, consultants and collaborators.

Note 10 - Funds in Trust

This account consists of donor funds which are managed by WorldFish for ultimate beneficiaries other than the organization.

Current year movements are as follows:

The Change Initiative Facility (hereinafter referred to as the "Trust") is an international fund established by the Consultative Group on International Agricultural Research to provide financing for two initiatives - the Independent Review and the Change Management Process which now further includes the Transition Management and Reform Implementation.

WorldFish's role is to assist in safekeeping and disbursement of the funds and charges a 4% administration fees to safekeep and disburse these funds.

Beneficiary : The International Center For Tropical Agriculture (CIAT) and The International Food Policy Research Institute (IFPRI) on their Challenge Program HarvestPlus.

Balance Dec. 31	241	-

HarvestPlus is a Global Challenge Program of the Consultative Group on International Agricultural Research (CGIAR) and is represented by the International Center for Tropical Agriculture (CIAT) and the International Food Policy Research Institute (IFPRI). CIAT and IFPRI have signed an unincorporated Joint Venture agreement to manage and executed the Challenge Program HarvestPlus.

Note 11 - Accruals and provisions

Accruals and provisions at 31 December consist of :

	2011	2010
	(US Dollar '000)	
Accrued expenses for supplies and services received *	1,254	1,013
Provisions	1,314	1,044
	2,568	2,057

* Included accrual of US\$208 thousand on estimated compensation claimed by ABIO staff (Philippines) transferred to FIN (external organisation).

Provisions

The movements in provisions during the year are as follows:

	Jan 1, 2011	Provided during the year	Utilized during the year	Dec 31, 2011
	(US Dollar '000)			
Provision for unutilized leave	338	3	-	341
Provision for IRS repatriation costs	683	266	(98)	851
Provision for IRS home leave	23	17	(23)	17
Provision for IRS dependent education	-	15	-	15
Provision for Medical Insurances	-	44	-	44
Accrued Payroll expenses	-	15	(2)	13
Provision for Relocation Expenses	-	33	-	33
	1,044	393	(123)	1,314

Note 12 - Unrestricted net assets

Designated net assets amounting to US\$1,092 thousand as of 31 December 2011 and US\$2,490 thousand as of 31 December 2010, represent the portion designated by the Center's management for specific purpose.

Undesignated net assets amounting to US\$7,208 thousand as of 31 December 2011 and US\$5,528 thousand as of 31 December 2010, represent the portion not designated by the Center's management for any specific purpose.

Note 13 - Material Litigations

i) Penang Headquarters - former employee

A) Penang Industrial Court

An ex-employee was terminated on 03.03.2007 by the Center after he was found guilty of misconduct alleged against him. The ex-employee had then filed a claim against the Center under S.20 of the Industrial Relations Act 1967, for re-instatement to his former position in the Center and other consequential reliefs. The Industrial Court has vide its Award No. 1197 of 2008 dated 10-07-2008 dismissed the claim, on the preliminary issue of immunity and privileges enjoyed by the Center. The ex-employee, being dissatisfied with the outcome in the Industrial Court, has filed for a Judicial Review (Case 25-68-2007) in the Penang High Court to quash the Award (see B below).

B) Court of Appeal, Putrajaya, Civil Appeal

The Penang High Court's Judge had on 13th May 2010 upheld the Center's and the Attorney General's Chambers Preliminary Objections against the ex-employee's Application and had ruled that the Center has immunity from being sued in the Malaysian Industrial Court. The ex-employee then filed an appeal to the Court of Appeal over the said High Court's decision. The case is still pending and there was no hearing of this matter by the Court of Appeal in Putrajaya during 2011.

In the event the ex-employee's case is remitted to the Industrial Court by the Court of Appeal (i.e. he is successful in his appeal to the Court of Appeal), the probable ultimate financial outcome of the matter (including court costs, legal fees etc) in the event that the decision is against the Center (not a certainty) in the Industrial Court will most probably be in the range of US\$76,000 (if the Court finds that he is still a probationer) or US\$146,000 (if the Court concludes that he was a confirmed employee). This sum would be covered by the Center's insurance.

ii) Egypt staffs

During February 2009, a group of 16 Egyptian former staff filed a case against WorldFish for insufficient compensation. They are demanding a compensation of EGP50,000 each, which would represent a liability to the Center of approximately US\$125,000. The matter is still pending and the Center awaits the hearing to scheduled by the Court.

iii) Egypt - former employee

A case brought against the Center at the South Cairo Court of First Instance, requesting a compensation of annual leave, compensation for trial period related to the contract and arbitrary dismissal of the claimant. Total exposure is US\$22,000. The Case was scheduled for hearing in April 2011 but this did not take place as scheduled.

Fisheries and Aquaculture Enterprise Development of the Adivasi Communities in North and Northwest Regions of Bangladesh	01.01.2007	12.31.2009	1,490	1,330	-	1,330
Food and Agriculture Organization of the United Nations						
AQ Certification in Thailand	02.01.2011	08.31.2011	33	-	33	33
Aquaculture Big Number Initiative	07.15.2010	02.28.2011	40	10	30	40
Pilot Implementation of the Ecosystem Approach to Fisheries and Aquaculture in Region 1 (Ilocos Region), the Philippines	09.01.2010	01.30.2011	18	15	3	18
Aquaculture Development Strategy and Action Plan for Timor Leste	02-15-2011	08-14-2011	50	-	50	50
Organizing and Implementing "MPA Status Review Workshop" under Bay of Bengal Large Marine Ecosystem (BOBLME) Project	01.04.2011	02-15-2011	22	-	20	20
SIDA Global Project on "small-scale fisheries"	10.18.2011	02.28.2012	20	-	15	15
ICM In Bay of Bengal: Best Practices and Lessons Learned	06.14.2010	05.08.2010	22	21	-	21
Fishbase Information and Research Group						
SeaLife Base Project (Phase II)	10.01.2007	09.30.2010	157	158	-	158
The Force of Nature Aid Foundation						
Community Based Fisheries Management in Post-Tsunami Aceh (Phase II)	02.01.2009	01.31.2010	43	44	-	44
German Federal Ministry for Economic Cooperation and Development						
Enhancing Adaptive Capacity to Climate Change Impacts Through Well-Managed Water Use for Aquaculture Integrated with Small-scale Irrigation in the Chinyanja Triangle in Africa	04.01.2010	03.31.2013	1,634	354	640	994
Practical Strategy and Guidelines for Introducing/Maintaining Fish Production In & Around Refugee Camps and Settlements	02.01.2010	04.30.2011	82	57	25	82
Strengthening aquatic resource governance: Institutional innovation to build livelihood security and reduce conflict in the Lake Victoria, Lake Kariba, and Tonle Sap/ Lower Mekong ecoregions	04.01.2011	03.31.2014	1,655	-	373	373
Indian Council for Agricultural Research and Min. of Agriculture Dept of Agri Research and Education						
Genetic Improvement of Freshwater Prawn(India) - Year 2011	01.01.2011	12.31.2011	100	-	100	100
International Centre for Environmental Management						
MRC- Climate Change Adaptation Initiative	02.10.2011	01.31.2012	32	-	31	31
On optimizing the management of cascades	11.01.2010	09.30.2013	53	-	22	22
International Food Policy Research Institute						
Conflict and Resilience in Natural Resource Management	01.18.2010	10.31.2011	152	106	45	151

THE WORLD FISH CENTER
(also known as ICLARM)
An International Non-Profit Organization

SCHEDULE OF RESTRICTED GRANTS
For The Year Ended December 31, 2011
(US Dollar '000)

Donors and Projects	Grant period		Grants Pledged	Expenditures		Total
	MM/DD/YY	MM/DD/YY		Prior Years	Current Year	
International Fund for Agricultural Development						
Linking Fisheries and Nutrition: Promoting Innovative Fish Production Technologies in Ponds and Wetlands with Nutrient-Rich Small Fish Species in Bangladesh	10.01.2010	05.31.2013	500	25	160	185
Fisheries study as an input towards IFAD's new COSOP in Bangladesh	11.04.2010	06.30.2011	30	22	8	30
Ex Ante Impact Assessment of Returns on Investments in the Fisheries and Aquaculture Sector in Developing Countries	09.29.2009	03.31.2012	200	16	125	141
International Rice Research Institute						
BDC: Increasing the Resilience of Agricultural and Aquaculture Systems in the Coastal Areas of the Ganges Delta:G2 – Productive, profitable and resilient agriculture and aquaculture systems	04.30.2011	04.30.2014	377	-	21	21
Expansion of Cereal Systems Initiative for South Asia (CSISA) in Bangladesh	10.01.2010	09.30.2015	6,019	72	988	1,060
Japanese Ministry of Foreign Affairs						
Japan Mekong Fund (2011)	04.01.2011	03.30.2012	101	-	41	41
Japan Mekong Fund 2010	04.01.2010	03.30.2011	130	91	39	130
Japan International Research Center for Agricultural Sciences						
CGIAR Fellowship Program (2009-2010)	10.12.2009	09.30.2010	11	9	-	9
Malaysian Agricultural Research and Development Institute						
Sea Ranching and Restocking Sandfish (Holothuria Scabra) in Malaysia	11.01.2009	12.31.2011	60	26	34	60
Ministry of Fisheries and Marine Resources						
Developing a Solomon Islands National Inshore FAD Programme	11.01.2010	07-31-2013	283	34	83	117
Strengthening Community-based Management of Inshore Fisheries Towards Gender Equity in Solomon Islands	11.01.2010	07-31-2013	263	18	80	98
Mitsui Bussan Environment Fund						
Scenario-based Assessment of the Potential Effects of Alternative Dam Construction Schemes on Freshwater Fish Diversity in the Lower Mekong Basin	09.01.2010	07.29.2011	66	-	66	66
Scenario-based Assessment of the Potential Effects of Alternative Dam Construction Schemes on Freshwater Fish Diversity in the Lower Mekong Basin (Apr 2011- Feb 2012)	05.02.2011	02.29.2012	18	-	9	9
Scenario Based Assessment of the Potential Effects of Alternative Dam Construction Schemes on Freshwater Fish Diversity in the Lower Mekong	04.01.2009	07.31.2010	81	82	-	82
National Fisheries Research and Development Institute						
Capacity Building on Fisheries Socioeconomic Assessments and Analysis	07.10.2011	07.15.2011	5	-	5	5
National Heritage Institute						
Mekong Fish and Sediments	10.30.2011	08.31.2012	51	-	13	13
NEPAD Secretariat						
THE AQUACULTURE WORKING GROUP (AWG) OF THE PARTNERSHIP FOR AFRICAN FISHERIES (PAF)	07.07.2011	08.07.2011	5	-	4	4
Norwegian Agency for Development Cooperation						
Review of Project Document - Phase 2 of " Strengthening Adaptive Capacities to the Impacts of Climate Change in Resource-poor Small-scale AQ and Aquatic Resources.	03.01.2011	03.31.2011	4	-	4	4
Norwegian Ministry of Foreign Affairs						
Addressing Climate Change by Building Social and Ecological Resilience in the Lake Chilwa Basin	04.01.2010	03.30.2015	2,400	271	527	798
Initial Funding for Proposal Development-Enhancing the Resilience of Lake Chilwa Basin Communities to Climate Strengthening the Management of Natural Resources in the Lake Chilwa Basin and Enhancing Communities' Resilience to Climate Change	12.08.2008	09.30.2011	27	19	2	21
OPEC Fund for International Development						
Enhancing the resilience of the chisense fishery for food and nutrition security in Zambia	09.01.2011	08.31.2012	100	-	15	15
Organization for Industrial, Spiritual, and Cultural Advancement (OISCA)-Japan Fund for Poverty Reduction (JFPR)						
Networking Community Capacity Building for Commercial Aquaculture	04.01.2011	05.30.2011	44	-	37	37
Support to Better Management Practices & Strengthening of Farmer Organisations for Replicable Livelihoods Models in Aquaculture	01.01.2010	10.30.2010	190	189	-	189
OXFAM						
EC OXFAM Southern Malawi Diversified Livelihood Program	04.01.2010	03.31.2011	23	-	23	23

THE WORLD FISH CENTER
(also known as ICLARM)
An International Non-Profit Organization

SCHEDULE OF RESTRICTED GRANTS
For The Year Ended December 31, 2011
(US Dollar '000)

Donors and Projects	Grant period		Grants Pledged	Expenditures		Total
	MM/DD/YY	MM/DD/YY		Prior Years	Current Year	
Philippines Bureau of Agricultural Research						
Evaluation of Nile Tilapia Strains for Aquaculture in the Philippines	10.01.2011	09.30.2012	118	-	9	9
Strengthening Governance and Sustainability of Small-Scale Fisheries Management in the Philippines: An Ecosystem-Based Fisheries Management Approach	01.01.2009	09.30.2011	216	172	46	218
Philippines Department of Science and Technology						
Assessment of Alternative Livelihood Opportunities for Small Scale Aquaculture Operations in the Philippines	01.04.2010	12.31.2011	75	67	8	75
Assessment of Alternative Livelihood Opportunities for Small Scale Aquaculture Operation in the Philippines	07.01.2010	12.31.2011	14	4	10	14
Enhancing Marine Protected Area Management Effectiveness for MPA Networks in Quezon, Bohol and Surigao del Sur	12.22.2008	12.31.2010	33	27	-	27
Rajiv Gandhi Center for Aquaculture						
Establishment of a Satellite Nucleus of the GIFT Strain at Rajiv Gandhi Center for Aquaculture, India	08.01.2011	07.31.2014	136	-	26	26
Resources Legacy Fund						
Environmental Outcomes Analysis of Aquaculture Improvement Projects	11.01.2011	03.31.2012	50	-	6	6
Save the Children (USA)						
Nobo Jibon under USAID-PL-480 Multi Year Assistance Program (MYAP) with Save the Children, USA	12.07.2010	08.31.2014	668	-	151	151
SEAMEO Regional Center for Graduate Study and Research in Agriculture						
Focused Food Production Assistance for Vulnerable Sectors (FPAVAS)	02.01.2010	10.31.2011	40	27	13	40
Secretariat of the Pacific Regional Environment Program						
Improved Governance in Solomon Islands Small Scale Fisheries	05.01.2009	11.15.2010	40	40	-	40
Sri Lanka National Aquaculture Development Authority of Sri Lanka, Min of Fisheries and Aquatic Resources						
Brood Stock Development Program in Sri Lanka	04.15.2007	04.14.2012	64	50	11	61
Stichting Our Source						
Financial analysis of aquaculture enterprises in Aceh for the purpose of preparing a business proposal for investment by Rabobank Foundation	06.01.2011	06.30.2011	5	-	5	5
Swedish International Development Agency						
Wetlands Alliance Implementation Phase	07.01.2009	12.31.2012	625	244	226	470
Fisheries and HIV/AIDS in Africa - Investing in Sustainable Solutions	04.01.2007	07.31.2010	4,450	4,446	-	4,446
Swiss Agency for Development and Cooperation						
Employment Creation in Egypt - Set-up Phase	07.01.2011	10.15.2011	151	-	151	151
Fishery Governance Policy Study	08.01.2009	11.30.2009	12	12	(12)	-
Improving employment and income through development of Egypt's aquaculture sector	12.01.2011	12.31.2014	4,339	-	57	57
Technology Application and Promotion Institute						
Comprehensive Aquaculture Development and Technical Assistance Program (AQUADEV)	01.01.2011	12.31.2011	104	-	104	104
The Agricultural Research Center of the Ministry of Agriculture, Government of Egypt						
Establishment of a National Fish Breeding and Genetics Center for Developing Genetically Improved Strains of Tilapia and the Development of Private and Public Sector Partnerships for Seed Multiplication and Distribution.	06.01.2010	05.31.2012	113	36	51	87
The Nature Conservancy						
CT Atlas (CTSP Y3 Funding) - Subaward #050311/ICLARM, TNC Sub-Award to develop the Coral Triangle Atlas (CT Atlas)	03.07.2011	09-30-2011	63	-	62	62
Using GIS data layers to support the design of MPA networks in the Coral Triangle	10.01.2010	12-31-2011	17	-	17	17
UniQuest Pty Limited						
CTI - Knowledge Management Project	05.01.2010	11.01.2012	111	16	33	49
United Kingdom Department for International Development						
Enhancing the Impacts of Decentralised (fish) Seed Production	08.01.2008	06.30.2011	325	241	79	320
United Nations Environment Program						
Reefbase Pacific Foreign Exchange	01.01.2010	02-28-2011	68	54	14	68
Small Scale Funding Agreement (SSFA)	08.18.2011	12.31.2011	10	-	10	10
