

WorldFish Science Week 18-22 July – Science Forum

Monday: Session 1 (15.30-17.30)

Moderator: Joelle

- Eric Baran: *Fisheries and dam development in the Mekong Basin*
- Yumiko Kura: *CPWF Mekong Basin Development Challenge – Optimizing Water Management in Reservoirs*
- Md Golam Mostafa: *Integrated Protected Area Co-management and CBM in Sunamganj, Bangladesh*
- Len Garces: *Management Effectiveness of Marine Protected Areas in the Philippines*

Moderator: Yumiko

- Dave Mills: *Reversing effort stampede in Ghana's coastal fisheries*
- Anne-Maree Schwarz: *Community based management of SSF in Solomon Islands*
- Joelle Albert: *Supplementary livelihood activities in rural Solomon communities.*
- Firoz Khan: *A synopsis of fisheries research support project (FRSP) and key findings of livelihood impact monitoring*

Tuesday: Session 2 (15.45-17.45)

Moderator: Manjurul

- Jharendu Pant: *Integrated agriculture aquaculture systems - (a short) history and future*
- Daniel Jamu: *Innovation brokerage in aquaculture: lessons from Malawi*
- Suan Pheng Kam: *Integrated aquaculture planning in the Chinyanja Triangle*
- Dīaa Al-Kenawy: *Integrated commercial agriculture-aquaculture systems in Egypt*

Moderator: Suan Pheng

- Meen Chee Hong: *Tilapia farmers in southern China: when do they have their say?*
- Oai Li Chen: *Fish farming ... still or not more your cup of tea?*
- Manjurul: *Adapting to climate change - experiences from Bangladesh*
- Fred Wierowski: *Aquaculture certification*

Wednesday: Session 3 (15.30-17.30)

Moderator: Alonso

- Benoy Barman: *Adivasi - poverty impacts*
- Shakuntala Thilsted: *Fish in the First 1,000 Days*
- Froukje Kruijssen: *Analyzing aquaculture livelihoods from a value chain perspective*
- Robert Holmer: *A Recipe for Healthy Cities: Vegetable Production in the Urban Environment*

Moderator: Froukje

- Huanh Chu Thai: *Conflicts between agriculture and aquaculture in the delta*
- Alonso Gonzalez: *Tropical fruits, coconuts and livelihoods*
- Leo Sebastian: *Agrobiodiversity framework for Asia-Pacific*
- Zainul Abedin: *Integrating rice and fish in Bangladesh*

Thursday: Session 4 (16.00-17.30)

Moderator: Kirsten

- Blake Ratner: *Catalyzing collective action to address resource conflict*
- Ben Belton: *Bangladesh aquaculture review: key finding and research priorities*
- Khondeker Murshed e Jahan: *Livelihood impact of aquaculture on the poor: Experience from Bangladesh*

Moderator: Ben

- Eddie Allison: *Where to fish for wealth?*
- Marie Badjeck: *Adaptation research in fisheries: insight from case studies and the road ahead*
- Kirsten Abernethy: *Adding value: research data management at WorldFish*

WorldFish Science Week 18-22 July – Science Forum

Friday: Session 5 (13.30-15.00)

- Raul Ponzoni: *Genetics - introduction*
- Hooi Ling: *Situation at the farm level and what to do about it*
- Nguyen: *Selection and mating decisions*
- Nabil: *What happened at Abbassa after a few generations?*
- Khairul and Hoong Yip: *What about multiplication and dissemination of improved strains?*
- Curtis: *Managing the risks associated with improved strains*
- Raul Ponzoni: *Genetics - close*
