

**The WorldFish Center** is an international, nonprofit, nongovernmental research organization dedicated to reducing poverty and hunger by improving fisheries and aquaculture. WorldFish is one of 15 members of the Consortium of International Agricultural Research Centers supported by the Consultative Group on International Agricultural Research (CGIAR). The CGIAR is a global partnership that unites organizations engaged in research for sustainable development with the funders of this work. The funders include developing and industrialized country governments, foundations, and international and regional organizations.

The WorldFish Center is committed to meeting two key development challenges:

- 1) improving the livelihoods of those who are especially poor and vulnerable in places where fisheries and aquaculture can make a difference
- and 2) achieving large scale, environmentally sustainable increases in supply and access to fish at affordable prices for poor consumers in developing countries.
